
MEDICAL FITNESS TO DIVE

As a Diving Ireland Member, you are required to complete a diver self-declaration of health form

1. Upon joining
2. At each medical examination
3. Annually when renewing Dive Ireland membership
4. Or if a diver's health status or medical treatment has changed

The annual declaration is completed online on Diving Ireland's Go Membership platform.

A new declaration has to be made in the event of a medical condition arising during the interval between annual self-declarations.

If you answer YES to any question on the online declaration the form is automatically referred to the Diving Ireland Medical officer

If you answer YES on any other occasion the Dive Ireland Medical Officer has to be notified. If you answer YES at a medical examination the examining doctor cannot issue you with a medical certificate of fitness to dive without first notifying Dive Ireland.

TO EXAMINING DOCTORS

Diving Ireland is affiliated to the UKDMC. All information and standards pertaining to this dive medical are on their website, www.ukdmc.org Please consult these guidelines when approving a person to dive. Please be aware of those conditions that are contraindications to scuba diving. Diving in Ireland is generally a safe adventure activity because of the high standards of training and diving standards set by Diving Ireland and but also by the exclusion of people who have medical conditions that would render them unsafe to dive. The medical declaration has to be completed at medical examination in the presence of examining doctor.

Deviation from the UKDMC standard is not allowed without the permission of Diving Ireland. Examining doctor should ensure that they have professional indemnity to undertake fitness to dive medicals.

Dive Ireland's Medical Officer is always available to assist you and answer your queries.

The email address is medical@diving.ie

The current requirements for a medical examination are as follows

- Upon joining
- 3 yearly from the age of 35
- Yearly from age 55
- Or if a diver's health status or medical treatment has changed

New divers should not commence diving training and existing divers should not dive until they have completed this medical declaration or had a medical examination confirming fitness to dive.

Fees for a medical examination are the responsibility of the diver.

NOTES TO DIVER: It is necessary for members of Diving Ireland to complete this form annually on renewal of membership. Exceptional fitness is not essential; both men and women can dive safely provided they are reasonably fit.

IMPORTANT – FAILURE TO DECLARE A MEDICAL CONDITION COULD INVALIDATE YOUR INSURANCE. YOU MUST DECLARE ANY MEDICAL PROBLEM PAST OR PRESENT OR ANY CHANGE IN HEALTH AS THIS MAY AFFECT YOUR FITNESS TO DIVE.

Name		Date of birth			
Address		Postcode			
Club and Number		Occupation			
HAVE YOU EVER HAD OR SUFFERED FROM?					YES NO
1	Diseases of the heart and circulation including high blood pressure (or taking tablets for high blood pressure), angina, chest pains or palpitations?				
2	Chest or heart surgery?				
3	Significant bleeding or blood disorders?				
4	Asthma, chronic obstructive airways disease or ever used an inhaler?				
5	Collapsed lung, pneumothorax or other lung injury?				
6	Any other problem affecting the lungs, suspected or known COVID-19 or tested positive for COVID-19?				
7	Blackouts, fainting or recurrent dizziness?				
8	Abdominal surgery, ileostomy, colostomy or repair of a hiatus hernia?				
9	Epilepsy or fit?				
10	Recurrent migraines?				
11	Disease of the brain or nervous system (including strokes or multiple sclerosis)?				
12	Back or spinal surgery or any serious back problems?				
13	Psychological illness of any kind, fear of small spaces, suicidal thoughts or panic attacks?				
14	Diabetes?

THIS SECTION TO BE COMPLETED BY THE DIVER

I understand the health risks that I may encounter in diving and how these risks may be reduced.

I also understand that the Medical Practitioner's recommendation herewith is based, in part, upon the disclosure of my medical history.

I agree to accept any responsibility and liability for health risks associated with my participation in underwater diving, including those that are due to or are influenced by a change in my health and / or a failure to disclose any existing or past health condition to the Medical Practitioner.
